Prepare your students to pass OET

Reach OET B Nursing enables schools and teachers to provide high quality, structured OET preparation courses to students who want to achieve a grade B in the OET Nursing test.

Reach OET B Nursing goes through the test paper by paper, question by question. It teaches the language, the techniques and the strategies students need to maximise their score. It includes expert insights, multiple practice activities, explanatory videos and model answers.

Your students take the course on your branded institutional platform with your logo, colours and imagery. Teachers can divide students into groups, get at-a-glance views on their progress, pull detailed reports and log in to student courses to check their answers.

Teachers get free logins, teacher guides with answers, audio transcripts, and lesson ideas, as well as ongoing support from SLC's academic department.
