

ENGLISH FOR CARE

DELIVERING OUTSTANDING CARE

ENGLISH LEVEL: A2 & B1
Elementary & Lower-intermediate

3RD
EDITION

Communicating accurately and effectively is critical to the safety, care and wellbeing of patients.

This course teaches the English that care professionals and students need to communicate effectively in many patient scenarios, including patient admissions, activities of daily living, vital areas of care, looking after elderly patients, and working with mental health issues.

The course is designed for care professionals and students with an elementary and lower-intermediate (A2-B1) level of English who work or study in English.

The course is easy to use, enjoyable and, above all, practical.

“It was very useful since I learned many medical terms and other vocabulary related to my studies and my future career. Also, I have learned how to communicate appropriately and professionally.”

Nawraa, nursing student

Course Content

Patient Admission

- Introducing yourself
- Checking patient information
- Patient confidentiality
- People and places in the hospital
- Taking patient observations
- Hospital chart: observation chart

Eating and Drinking

- Talking about meals

Inputs: during the course, you listen to conversations, read medical texts and hospital charts, watch animated videos, look at work-related photographs and images, and study vocabulary, grammar and pronunciation focus points.

Exercises: you take a wide range of exercises to help learn the language you need. The exercises concentrate on learning the English required in multiple healthcare scenarios.

Length: 60 hours, with each unit designed to take 6 hours to complete.

Progress Assessment: at the end of every unit, there is a progress review and test so you can assess what you have learnt.

Course Accreditation: The course is accredited by the CPD Standards Office in the UK, whose professional qualifications are recognised worldwide.

End of Course Certificate: When you complete the course, you receive a formal CPD Standards certificate, accepted internationally and across multiple professional sectors.

About the author: Virginia Allum is SLC's Head of Medical English and an internationally renowned medical English author, speaker and trainer.
