

SLC – Specialist Language Courses

The UK's leading provider of digital language services to the global healthcare sector

What we do

“We provide online English language training, study and assessment services which enable thousands of medical professionals and students around the world to work, travel, study, research, develop themselves, and communicate with each other in English, the lingua franca of medicine.”

Why English for healthcare?

- Focus on where effective communication makes a critical difference
- Support an increasingly international workforce
- Support the rise of international medical universities

Why online?

- Reach
- Scale
- Flexibility
- Agility
- Sustainability

1. We train medical professionals to pass tests

We prepare overseas nurses and doctors to pass English tests so they can work in English-speaking countries

- **Problem**

Global healthcare worker shortages.

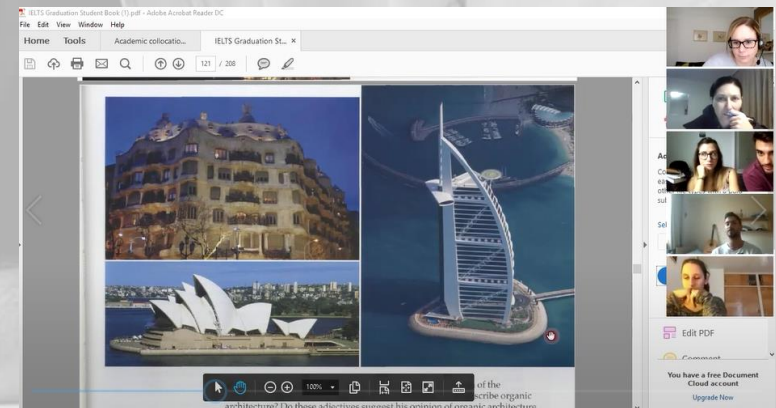

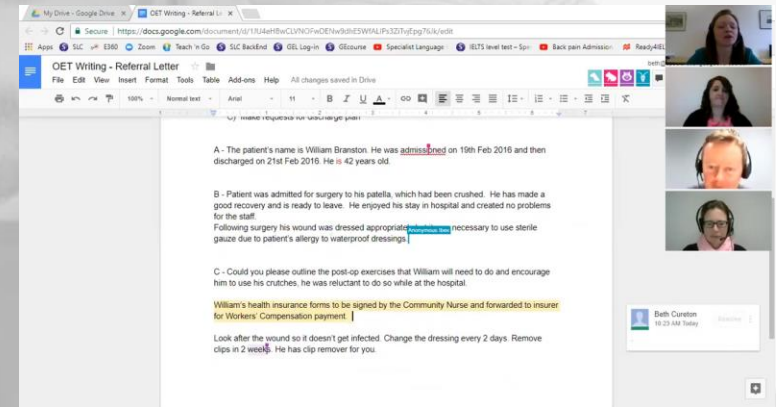

- **Solution**

SLC's combines online classroom teaching and online study products to prepare healthcare professionals around the world to pass the English language tests they need to register in English-speaking countries.

a. Online test preparation classes

- Qualified, experienced online teachers
- Online-specific teaching methodology
- Award-winning teaching platform
- Course materials provided
- Up to 10 students per class

b. Online test preparation materials

- ✓ Written by experts
- ✓ Targeted
- ✓ Scalable
- ✓ Reliable
- ✓ Updateable

2. We publish online medical English courses

We provide medical educators with powerful online medical English materials

- **Problem**

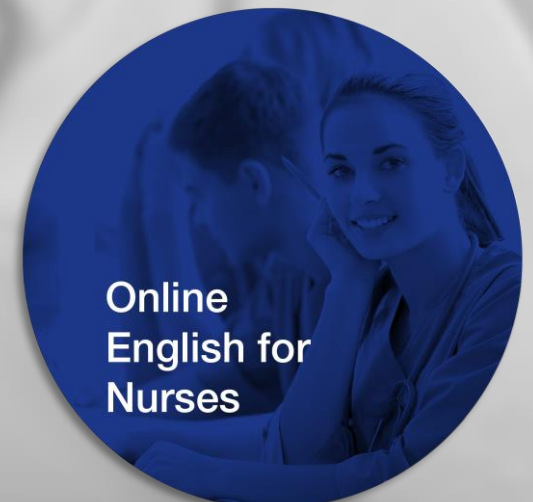

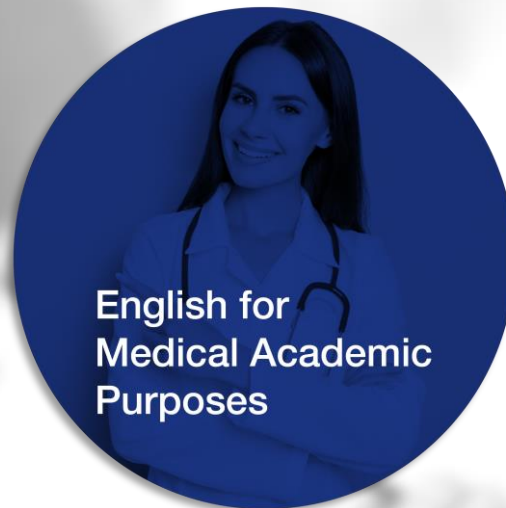

English is the lingua franca of global healthcare, yet there are few medical English materials on the market. Medical universities cannot deliver the courses they want to. Students without high English levels cannot engage in the global healthcare community.

- **Solution**

SLC's publishes and distributes accredited online English courses for medicine, nursing, pharmacy, care, medical academic purposes and medical terminology. Courses can be taken standalone or integrated into face-to-face tuition. Feedback from teachers and learners is consistently excellent.

Hundreds of hours of specialist materials

- ✓ Trackable
- ✓ Updateable
